FUN RUN TO NATURES VIEW FARM STALL Sunday 22 September 2013 by Ron Gush

Thanks to Des Hill who organised the fun run.

Nine old and 3 modern cars assembled at 10h30 at the Civic Centre for a natter and briefing. Not counting one that went out rather early and one that arrived rather late – 5 moderns in all.

Des handed out a little questionnaire at the start – which we drivers promptly handed to our navigators, who are known for their superior literacy skills.

We were required to totalise the speed limit signs (not just count them!) and estimate the diameter of the red circle. There were indeed a few surprises in this exercise:

Surprise number 1 was that there were 17 speed limit signs in the 23 km. Less than a mile apart, on average!

Surprise number 2: Most of us guessed the diameter at 500 to 800mm. Mike Legg, being a resourceful sort of chap, stopped at home for a tape measure and got it right: 1.2 metres!

Tea and scones / muffins at Natures View were most refreshing.

The gang admiring Guys new Merc.

Three wise men?

The ladies always add a touch of class to these events

The Mears brothers

Rob and Rob looking pleased

*Take a good look at the "frame" of this club badge. It is laser cut from stainless steel.
Not many like that in the club! Very nice.*
